Kooyong Estate Pinot Noir 2008

89

2011-13

Tasted at Lincoln's Inn July 2011

The sweetness of the fruit gives richness on the nose but it is all a bit too meaty. The sweet black cherry on the palate is underpinned by some red fruits and these tend to balance the richness and give a lighter more elegant feel on the finish.

Kooyong Massale Pinot Noir 2008 **87** **2011-14**

Tasted at Lincoln's Inn July 2011

The red fruited freshness that features on the nose is not there on the palate which is over fat and rich. Under the sweetness there is some hard tannin that holds back fruit expression and shortens the finish.

Kooyong Haven Pinot Noir 2005 **85** **2011-12**

Tasted at Lincoln's Inn July 2011

The fruit is drying out on both nose and palate with the black cherry and mulberry that shows overtaken by the leafy nuttiness of maturity.

Kooyong Ferrous Pinot Noir 2005 **85** **2011-12**

Tasted at Lincoln's Inn July 2011

The sweetness of the nose does not really show on the palate which is dominated by firm slightly drying tannins. Sweet fruit does come through towards the back but the nutty maturity and drying tannins take over and dominate.
