The Barlow family took over in 1941 and it is Peter Barlow's and now son Simon's hard work and investment that that brought the property to its leading position. The estate is not just famous for its wines, but also for its prize winning herd of Jersey cattle.

The grape mix is classically international; the vineyards that lie on the slopes of the Simonsberg and Helderberg mountains are managed by wine maker Adi Badenhorst with help from viticulturist, Nico Walters.
